

Viscount Fire Safety

SCOPE AND CONTEXT OF ACTIVITIES

This document details the Viscount Fire Safety Scope and Context of Activities, as required by ISO 9001:2015.

Viscount Fire Safety (VFS) (The Company) - a Trading Name of Viscount Consultants Limited – is based in Twickenham having been established in 2007.

The Company's core offerings are

- Fire Safety Training, both at Basic and Fire Warden levels;
- Fire Extinguisher supply and maintenance;
- Fire Alarm installation and servicing;
- Portable Appliance Testing (PAT);
- Fire Risk Assessments.

The geographical area we cover is mainly around the north, west and south of London but we do, and are happy to, serve clients in other parts of Greater London.

VFS is totally customer driven and our key aim is to be a one-stop-shop for all our clients' fire related needs. We do this by coordinating all their requirements and by using our established partnerships with other professionals, particularly those relating to Fire Risk Assessments, and Security Services and Systems

Our Quality Assurance Manual relates to all the Company's activities with the exception of Portable Appliance Testing and Fire Alarm installation and maintenance, as these are not part of our registration under ISO9001:2015.

This Scope and Context of Activities is available to interested parties and can be found on the VFS website www.viscountfiresafety.co.uk
